

Section 3 Job Opportunities For Public Housing Residents

The Montgomery Housing authority is encouraging all interested Public Housing Residents to become pre-certified for possible job opportunities on certain construction and renovation projects within the Public Housing communities.

Residents should fill out a *Section 3 Self-Certification Form* in the Manager's office of their respective community in order to be placed on a list of pre-certified individuals who are eligible for possible job opportunities. Copies of this completed form will be given to contractor's performing work at the MHA and will serve as a pre-certification for employment eligibility. The Manager's Office will retain a copy on file and any changes in information should be updated at the office as needed.

The *Section 3 Certification Form* contains a list of job skills that should be checked by the applicant. If you have had experience with certain trades and/or any construction related skills or experience they should be checked and noted on the form. This will allow the contractor to match potential workers with job opportunities available at the job site.

The MHA would like to thank you for your interest in this program and hope that you will take the opportunity to complete the *Section 3 Self-Certification Form* at your Management Office today.
